

Simon Education® Brochure 2010/11

...real education to unlock the child's genius

0845 604 6731

About Simon Education®?

Simon Education provides additional learning support to children from 5 to 16 years of age in maths, English, science and cultural literacy. This extra support takes place on Saturdays at Simon's Saturday schools and at our learning centres which takes place during the week. Children attend for two hours and are taught by trained teaching teams in a ratio of one teacher to not more than twelve children in a class. The fee per week for the tuition is £20 for the first child and £10 per week for the second child (sibling). There is a £25 registration fee. All families receive a copy of the book ***How to Unlock Your Child's Genius*** when joining Simon Education and are expected to systematically work through the book to improve the learning environment of the home.

Our History

Simon Education is an award winning social enterprise that has helped thousands of children to achieve their potential over the last 23 years by providing additional learning support in English, mathematics, science, study skills and cultural literacy. Simon Education was founded in 1987 and registered as a community interest company in 2006.

Our Success

Our success is based on working with children and young people whilst also working with parents by publishing and delivering courses such as: *How to Unlock Your Child's Genius* and *How to Unlock Your Family's Genius*.

The aim of Simon Education's additional learning support is to:

1. Improve the English, mathematics, science, cultural literacy and study skills of the students and their enjoyment of learning.
2. Prepare the students for their exams in English, mathematics and science.
3. Raise the self-esteem and confidence of the students in order to make them confident and dynamic learners.
4. To develop their awareness of the world they live in and how they can become positive citizens.

How Simon Children and Families Realise their Genius

High Expectation	At Simon we believe that all children can achieve because all children possess genius!
Laying the Foundation	At Simon Education many children and young people have difficulties in their English and Mathematics because they have not grasped the basics of these subjects and perhaps the way they were taught did not suit their learning style.
Individualised Learning	Each student undertakes an initial assessment and based on this assessment an individual learning plan is set for the student. Each student is given homework weekly.
Developing Parental Support	Simon Education provides parents and carers with the opportunity to undertake Simon's highly popular courses: <i>How to Unlock Your Child's Genius</i> and <i>How to Unlock Your Family's Genius</i> .
Creativity	Students learn best when they are asked to be creative and are having fun. The Simon workbooks develop this creativity in students and makes them want to learn.

Service Snapshot

Saturday School (Saturday 11 – 2pm)	<ol style="list-style-type: none"> 1. Duration: Two hours (of actual teaching) 2. Subjects: mathematics, English and Science 3. Class sizes: 12 maximum 4. Age range 5 to 16 years
Learning Centre (Monday to Friday 4.30 - 6.30)	<ol style="list-style-type: none"> 1. Duration: Two hours. 2. Subjects: Mathematics, English, Science, Study Skills & Cultural Literacy. 3. Class sizes: 12 maximum 4. Age range 5 to 16 years
